

# COVID-19 MITIGATION OPENING PLAN 2022-2023

## School-Based Guidelines and Best Practices

### Introduction

**Requirement** – This is defined as something that is specifically required for all campuses. These will be indicated in this document by an **Ⓡ**

**Best Practices** – These are defined as highly suggested practices, indicated by a **β**

### Compliance and Reporting

#### Staff and Students

- We will continue to meet COVID reporting requirements.

### Face Masks

- Face masks are optional for ALL students, teachers, staff, and visitors while on campus.

### Entering and exiting the building

**Guiding Principle** – A safe and coordinated entrance into the building.

- Hand sanitizing stations must be present at entry points for students **β**

### Recess

- Hand sanitizer will be available to students before and after recess **β**

### Restroom Use

- Schools must develop a regular cleaning schedule of restrooms **Ⓡ**

### Award Ceremony

**Guiding Principle** – Recognition of student success remains important and should be in person.

- Schools may consider live streaming the ceremony for parents at home, assuming proper privacy precautions have been taken (media release verification, etc.) **β**

### Building & Process Guidelines and Best Practices

#### Front Lobby

Required: **Ⓡ**

- Hand sanitizing station

Optional:

- Plexi glass sneeze guard on front office window

## COVID Waiting Room (dedicated space not required)

Required: ®

- A space that can be used if needed, does not need to be a dedicated room.

### Students who appear sick:

- If a student should become ill during the school day, and exhibit any of the following:
  - Feverish/sweaty/flushed/warm to the touch not due to running or physical activity
  - Chills/shaking due to being cold, when others are not displaying the same symptoms
  - Continuous coughing (not due to choking on water/saliva, chronic asthma/allergies)
  - Having difficulty breathing and/or visibly looking distressed
  - A temperature at or above 100.4 degrees
  - Vomiting or diarrhea
  - Indicators of an infectious illness (e.g. chicken pox, pink eye, influenza, etc.).
- Please provide the student with a health room pass and send the student to health room to be triaged
  - Ask student to wear a mask, although not required
- Contact parents or guardian immediately to pick up their student
  - Staff will also ask the parent/guardian if in the previous two weeks the student has had close contact with someone who had a confirmed case of COVID-19. If the answer is yes. The "COVID-19 Exposure" screening process will be followed.

### When sick students can return to school

- If a student COMES TO SCHOOL with higher risk COVID-19 symptoms such as cough, fever, shortness of breath or loss of taste and smell, parents will need to pick the student up from school and they can return once the following conditions are met:
  - The child should be fever free for at least 24 hours without the use of fever reducing medication; and
  - should not have any signs or symptoms of illness.
- For students who are ill and DO NOT COME TO SCHOOL, they may return if, in accordance with our current return to school procedures:
  - They are fever free (less than 100.4 degrees) for at least 24 hours without the use of fever reducing medication; and
  - they have no other signs or symptoms of illness.

## Confirmed Exposure to COVID-19 (Quarantine)

- Follow all applicable state, county, and local requirements with respect to quarantining, isolation, and returning to school. In the absence of any specific requirements set forth by local authorities, the School will refer to the guidelines set forth by the CDC. See Appendix for the current processes related to quarantine following confirmed exposure to COVID-19. These processes are subject to change as required by modified guidance from federal, state, or local authorities and/or school management decisions based on current conditions and other relevant factors.

## Confirmed Case of COVID-19 (Isolation)

- Follow all applicable state, county, and local requirements with respect to quarantining, isolation, and returning to school. In the absence of any specific requirements set forth by local authorities, the School will refer to the guidelines set forth by the CDC. See Appendix for the current processes related to confirmed cases of COVID-19. These processes are subject to change as required by modified guidance from federal, state, or local authorities and/or school management decisions based on current conditions and other relevant factors.

In order to mitigate COVID-19 risk factors and maintain continuity of educational services, the procedures and practices outlined in this document will be reviewed periodically by school leadership and other appropriate personnel to adapt to changing conditions. Procedures and practices will be updated accordingly to meet these needs and informational notice will be provided to the schools' governing board.

## APPENDIX

Federal and local guidance is rapidly changing and BASIS.ed is continuously monitoring the situation to provide the most up to date information. This appendix will be updated as appropriate to adapt to currently available information and guidance. Informational notice will be provided to the schools' governing boards when substantive changes are made. As of, **August 11, 2022**, new information on isolation and quarantine has been updated as it applies to the general public and health care facilities.

Guidelines can be found here: [cdc.gov/coronavirus/2019-ncov/community/schools-childcare/k-12-childcare-guidance.html](https://www.cdc.gov/coronavirus/2019-ncov/community/schools-childcare/k-12-childcare-guidance.html)

### QUARANTINE

Not required for close contacts

### ISOLATION

- If a person is symptomatic and awaiting COVID-19 test results:
  - Stay home away from others or under isolation precautions until results are available. If results are delayed, follow guidance for symptomatic and tested positive for COVID-19. Once results are available, follow the recommendations below based on results.
- If a person is symptomatic and tested positive for COVID-19 by PCR or antigen testing, stay home away from others or under isolation precautions until:
  - At least 5 days have passed since symptoms first appeared; AND
  - At least 24 hours have passed since last fever without the use of medicine that reduces fevers; AND
  - Other symptoms have improved.
  - Individuals should continue to wear a mask around others and take additional precautions through at least day 10 from when symptoms first began. If you cannot wear a mask during this time, you must continue to isolate for 10 full days after symptoms first began.
- If a person is symptomatic and tested negative for COVID-19 by PCR or antigen testing, stay home away from others or under isolation precautions until:
  - At least 24 hours have passed since last fever without the use of medicine that reduces fevers; AND
  - Other symptoms have improved.
- If a person is symptomatic and has not been tested for COVID-19 by PCR or antigen testing, stay home away from others or under isolation precautions until:
  - At least 5 days have passed since symptoms first appeared; AND
  - At least 24 hours have passed since the last fever without the use of medicine that reduces fevers; AND
  - Other symptoms have improved.
  - Individuals should continue to wear a mask around others and take additional precautions through at least day 10 from when symptoms first began. If you cannot wear a mask during this time, you must continue to isolate for 10 full days after symptoms first began.
- If a person is asymptomatic and awaiting COVID-19 test results:
  - No isolation is required while waiting for test results. Take everyday precautions to prevent the spread of COVID-19. Once results are available, follow recommendations based on results.
- If a person is asymptomatic and tested positive for COVID-19 by PCR or antigen testing,

stay home away from others or under isolation precautions until:

- At least 5 days have passed since specimen collection of the first positive COVID-19 PCR/antigen testing while asymptomatic.
  - If symptoms develop, follow guidance for symptomatic and tested positive for COVID-19.
  - Individuals should continue to wear a mask around others and take additional Precautions through at least day 10 since specimen collection of the first positive test. If you cannot wear a mask during this time, you must continue to isolate for 10 full days after the collection of the first positive test.
- If a person is asymptomatic and tested positive for COVID-19 by serology:
    - No isolation is required since there is a low likelihood of active infection. Take everyday precautions to prevent the spread of COVID-19.
  - If a person is asymptomatic and tested negative for COVID-19 by PCR, antigen testing, or serology:
    - No isolation is required. Take everyday precautions to prevent the spread of COVID-19.
  - If a person has other non-compatible symptoms and has not been tested for COVID-19, stay home away from others or under isolation precautions until:
    - At least 24 hours have passed since the last fever without the use of medicine that reduces fevers; AND
    - Other symptoms have improved.
